

## SHEEP GLAND IN SERUM RENEWS CONVICT'S YOUTH

Amazing Discovery of Inoculation Process Makes Operation Needless.

**HYPODERMIC NEEDLE USED**  
Dr. L. L. Stanley, at San Quentin Prison, Has Successfully Treated 600 Inmates.

By OSCAR H. FERNBACH.  
Copyright, 1921, by Examiner Publishing Company.

SAN FRANCISCO, Cal., Nov. 12.—Almost within the shadow of San Francisco there has just been perfected a medical process whereby the transmission of animal glands into the human system can be accomplished without a surgical operation.

The hypodermic needle, inoculating a specially prepared serum, has made incision unnecessary in the future. Many persons, whom fear of the knife has deterred from undergoing treatment now admitted to be of efficacious result, are to be enabled to take a cure which they believe was denied them.

With extraordinary interest the eyes of the medical profession these days are being turned toward San Quentin Prison, where Dr. L. L. Stanley, the resident physician at that penal institution, is engaged in the physical rehabilitation of mankind.

Physical rehabilitation—with results so remarkable, so astonishing, as to suggest almost the supernatural to the minds of uninformed laymen.

Serum is injected.

For years Dr. Stanley has been experimenting with the effects produced by the absorption into the human system of certain glands of animals—namely, glands of goats and sheep. This treatment, originally advocated by Dr. Brown Sequard, in Paris, in 1889, recently has been engaging the renewed resources of physicians in various parts of the United States.

It has remained for Dr. Stanley, however, to perfect a serum, obtained from the glands of sheep, which may be introduced by a specially constructed hypodermic needle, thus rendering obsolete the surgical operation hitherto relied upon.

With a natural modesty, coupled with the reluctance of his profession to exploit their discoveries and their research work through channels other than medical conventions, conferences or journals, Dr. Stanley yesterday was reluctant to give more than the merest outlines of the remarkable investigations and experiments now occupying his attention. But a news paperman was permitted to enter into an examination of the methods employed by him, to interview convicts who have subjected themselves to the treatment, and to learn from them the physical and mental improvement which has resulted.

The story is one to make the shades of Ponce de Leon turn green with envy.

## Former German Fortress To Be Watering Place

HAMBURG, Nov. 12.

PLANS are now afoot to convert Heligoland, the dismantled German fortress, into an international watering place and a center for regattas and water sports. A company with large capital is organizing a scheme which will include extensive beach improvements and establish regular transportation routes between Hamburg and Bremen.

It is expected the enterprise will appease the dissatisfaction of the islanders and put an end to the secession movement.

envy. Vigor of brain and vigor of body seem to be permanently summoned and maintained by the treatment being given by Dr. Stanley. Convicts formerly emaciated have gained remarkably in weight. Men who came to the prison slothful, unambitious save in the direction of criminal achievement, now go about alert, buoyant, apparently full of the joy of living, with keener eyesight, improved appetite and a desire to learn and conform to the tenets being inculcated by Warden Johnston.

More than 600 inmates of the prison, as well as a number of other patients, have been treated by Dr. Stanley. The cases include senility, neurasthenia, dementia praecox—that is, the psychosis of the psychiatrist; paralysis, epilepsy, rheumatism, gangrene, diabetes and asthma. In some instances remarkable cures have been effected. In all there has been a noticeable improvement in general physical condition.

The brain, the nerve centers, the muscles, all give wonderful reaction to the injection of the serum. There seems to be a strong renewal of tissue, a sympathetic revival of all of the glands of the body and of their various secretions. Notable, according to Dr. Stanley, is the improvement of the thyroid gland, and of those which govern the more important natural functions of the human body.

## Concrete Bridge Built in France 2,000 Years Ago

PARIS, Nov. 12.—A certain concrete arch bridge in the south of France, known as the Pont du Gard, was erected in the rather remote year 56 B. C. and has, therefore, been in use for nearly 2,000 years.

The concrete of this structure was not composed of crushed stone or other small aggregate of the variety now employed in bridge work, but was of the old style, consisting of alternate layers of large and small stones, gravel, etc., and of cementitious material.

## DIDN'T KNOW WAR IS OVER

LONDON, Nov. 12.—While N. Frank Parsons, an apprentice engineer at Leith, was engaged in examining a German pistol he was accidentally shot when the weapon unexpectedly discharged.

## NEW U. S. COLONIAL POLICY ADVOCATED

Representative Shaw Urges Admission of Chinese to Hawaiian Territory.

There is imperative need for an efficient colonial policy for outlying territories and insular possessions, according to Congressman Guy L. Shaw of Illinois.

As a member of the Immigration Committee of the House, Congressman Shaw has been giving much time and study to the Japanese problem in the Hawaiian Islands. Commanding as they do the Pacific Coast line of the United States, their value to the nation from a military and naval standpoint cannot be overestimated, he said.

"The time for the Government of the United States to act is now," declared Congressman Shaw. "Some remedy must be prepared and applied at once that will choke off his Japanese drive for the islands and insure them for the American people. It is not safe to have American fortifications and the naval base there surrounded by a Japanese population."

"The Americans of Hawaii are asking that Chinese be allowed to come in, under authority and direction of the President of the United States, to break the preponderance of the Japanese. It is the solution of the problem as the Americans of Hawaii see it."

"During the hearings I have found no one who does not admit the seriousness of the situation. Those who have opposed it, leaders of organized labor, record their opposition to the remedy. Admitting that the situation is serious, and even dangerous, they have not as yet tempered their opposition with any other suggested remedy."

## Four Negroes Convicted of Assaulting Officers

DANVILLE, Va., Nov. 12.—William Woody, colored, his four brothers and Thomas Nelson recently convicted of assaulting prohibition agents in Halifax county were convicted today at Halifax court house and sentenced to the same punishment levied by three magistrates from whose decision they appealed. They must pay fines of \$500 and go to jail for twelve months. The negroes served notice applying for a writ of error and were released on bonds of \$1,000. They are charged with threatening the lives of the officers and driving them away, also with shooting at them, after the agents had made a fruitless search for liquor in a negro's house.

## DEATHS.

COOPERMAN. On Wednesday, November 10, 1921, BARNEY COOPERMAN, in the fiftieth year of his age. He is survived by his widow, Rebecca; five daughters, Mrs. Sidney B. Lust, Harriet, Julia, Elizabeth and Ann, and one son, Charles. Funeral was held November 10, 1921, at 2 p. m. from his late residence, 1811 Adams Mill road. The members of the family extend their thanks for the many floral offerings and the assistance of the Modern Woodmen of America.

## FUNERAL DESIGNS

## Russian Waifs Roaming Fields Like Animals

RIGA, Nov. 12.

CHILDREN are living in the woods and fields like young animals in some parts of the famine district of Saratov, says an official wireless dispatch. They are little waifs who have fled from famine-stricken cities and villages and subsist on roots and grass.

Overcrowding of children's homes had been carried so far in the Syrzan and Ufa districts that some of the institutions are sheltering four times as many children as they have accommodations for.

In these places children take turns in occupying such beds as are available, one small famine victim crawling into a bed the moment another child vacates it.

## Indians' Railroad Passes Wear Out in a Few Years

GLOBE, Ariz., Nov. 12.—Free rides for the Apache Indians on the Arizona Eastern Railroad across the San Carlos Reservation are going into their third and last decade.

By a contract with the railroad the Apaches were permitted to ride free for thirty years. As the line was completed in 1898, they have had twenty-three years of passes.

For two years this railroad, first known as the Gila Valley, Globe and Northern, was held up because the Indians would not grant a right of way across the reservation.

A conference was finally arranged. Gifts of ponies and blankets were exchanged, a pow-wow followed and the pipe of peace was smoked. Each Apache received \$10 cash and a thirty-year pass.

## BANK OFFERS CORN PRIZES.

WINCHESTER, Va., Nov. 12.—To stimulate interest in corn growing in Frederick and surrounding counties, the Farmers and Merchants' National Bank announced a number of attractive cash prizes for the best entries to be submitted to an expert judge on December 3. A general meeting of farmers will be held the same day.

## JORDAN WATER FOR BAPTISM

SANTA BARBARA, Nov. 12.—In a baptismal ceremony for his infant son the Rev. Clarence Spaulding, pastor of the Presbyterian Church here, used water he had taken from the River Jordan eleven years ago while on a tour of the Holy Lands.

# Only One Best Way to Take Yeast With Iron!

## Thousands Take IRONIZED YEAST Tablets for Best and Quickest Results

To Build Firm Flesh, Beautify Your Complexion Increase Your Strength, Energy and Nerve Force Try This Great New Tonic. Watch the Quick Results!

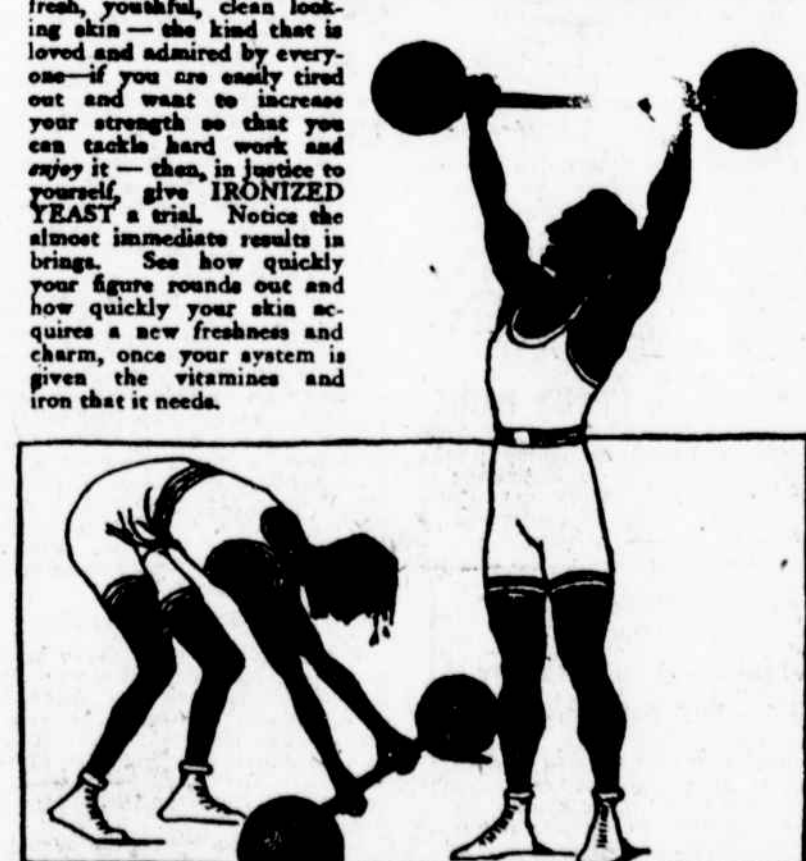

No one can resist the fascinating appeal of a fresh, youthful skin and a well-rounded figure. IRONIZED YEAST supplies your system with two elements which are absolutely necessary for both—vitamins and iron.

## Very Important!

IRONIZED YEAST is pleasant to take and will not in any way upset the stomach. It contains, in highly concentrated form, the highest grade of specially cultured yeast, grown under the strictest supervision for medicinal purposes, and besides being rich in yeast vitamins also contains the vitally essential Fat Soluble A and Water Soluble C vitamins. In addition it contains iron in its easily assimilated form—organic iron—similar to that found in spinach. Each package contains 60 sanitape-wrapped tablets (10 to 15 days' treatment) and costs only \$1.00. Bear in mind that there is only one genuine IRONIZED YEAST. Do not accept substitutes or inferior imitations. Special directions for children in each package. Sold at all good drug stores such as the Peoples Drug Stores.

There is only one IRONIZED YEAST. Do not accept substitutes or inferior imitations.

Weak, thin, nervous and run-down folks are finding that yeast brings its splendid results often in half the usual time when it is taken with organic iron, as in IRONIZED YEAST. The reason is that in IRONIZED YEAST you get the benefit of two splendid health-builders instead of only one, as formerly. Yeast with its energy-giving, time-building vitamins, helps to put new flesh on your bones, strengthen your muscles, clear your skin and calm your shattered nerves. Iron is needed to make your blood rich, red and strong. Both these essential substances are often lacking in the average modern diet. Yet both are absolutely necessary to perfect health, and that is why both have been combined in IRONIZED YEAST. If you are thin or run-down and want to fill out the hollows in your cheeks, neck, shoulders and limbs with good, solid flesh—if you suffer with pimples, blackheads, boils, or other humiliating skin blemishes and want to quickly acquire a fresh, youthful, clean looking skin—the kind that is loved and admired by everyone—if you are easily tired out and want to increase your strength so that you can tackle hard work and enjoy it—then, in justice to yourself, give IRONIZED YEAST a trial. Notice the almost immediate results it brings. See how quickly your figure rounds out and how quickly your skin acquires a new freshness and charm, once your system is given the vitamins and iron that it needs.
